## DETAILED ACTION

### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 3 of the specification, underneath the heading BRIEF DESCRIPTION OF THE DRAWINGS, the following paragraph has been added:

--The patent or application file contains at least one drawing executed in color.

Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.--

### ***Allowable Subject Matter***

**Claims 1-9 and 12 are allowed.**

The following is an examiner's statement of reasons for allowance:

As to claims 1 and 12, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for testing etalons by analyzing interference patterns (fringes) **to estimate the uniformity of etalon spacing**, in combination with the rest of the limitations of claims 1 and 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Amendment***

The amendment after Final filed on May 17, 2006, has been entered.
